

Asset-Backed Logistics Investment Model

Powered by Real Enterprise Contracts

Investment Model

A professionally managed, asset-backed income model

- Investor Funds the Vehicle
- DRiV Manages End-to-End Operations (driver, trips, maintenance)
- Profit Sharing: 50% Investor / 50% DRiV

What you get

- **Monthly Earnings:** begin from deployment and are based on utilization.
- **Asset-Backed Investment:** Your capital is deployed in a physical commercial vehicle
- **Fully Managed:** You invest, we handle the entire operations

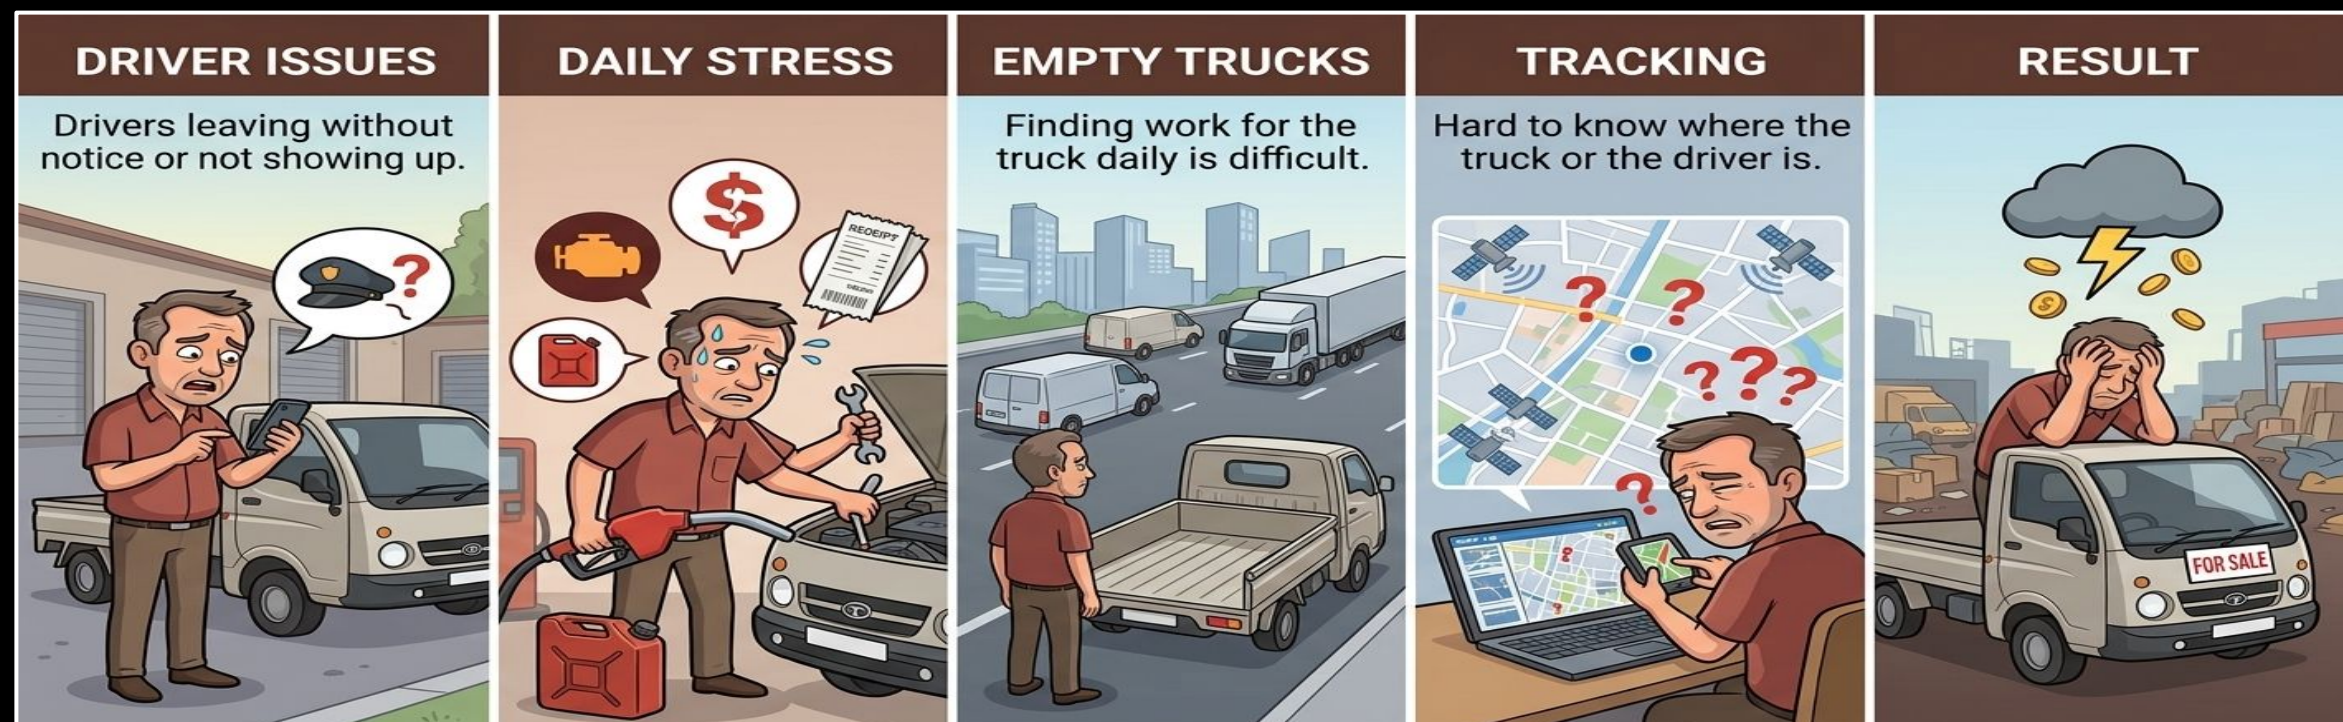

👉 Earnings are directly linked to vehicle utilization and active contracts.

The Problem

Why Logistics is hard to do alone?

- **Driver Issues:** Drivers leaving without notice or not showing up.
- **Daily Stress:** Managing fuel, Daily Road Issues, and small repairs every day.
- **Empty Trucks:** Finding work for the truck daily is difficult.
- **Tracking:** Hard to know where the truck or the driver is.
- **Result:** Individual owners struggle to maintain consistent income.

The **Solution**

DRiV : We Manage, You Earn.

- Backed by existing contracts with leading enterprise clients
 - **Expert Teams:** * We have a team to find and train drivers.
 - We have a team to handle daily repairs and fueling.
 - **Smart Tech:** Use our app to track your vehicle and earnings in real-time.
 - **Full Care:** We handle the vehicle from day one until we sell it for you.
- 👉 Vehicles are deployed across multiple clients to ensure high utilization.

Comparison (The Best Way to Invest)

Investment Type	Avg. 5-Year Return	Risk Type	Effort
Fixed Deposit	~35% - 40%	Low	Zero
Mutual Funds	~75% - 90%	Market Risk	Zero
Real Estate	~50% - 70%	Liquidity Risk	Medium
DRiV Fleet	2.5x - 2.7x	Asset-Backed	Zero (We Manage)

👉 Returns are indicative and depend on utilization and operations.
